CONTENTS.

	Page.
Farmers' Bulletin No. 976.—Cooling Milk and Cream on the Farm.	
Necessity for prompt cooling	3
Development of bacteria in milk	4
The principle of cooling	5
Use of surface coolers	6
Milk-cooling tanks	8
Use of well or spring water for cooling milk	12
Keeping milk cold during shipment	14
How to stop milk losses	15
The cooling of cream	16
Farmers' Bulletin No. 977.—Hay Caps.	
Why hay cap users are enthusiastic	3
Kinds of hay caps	3
Durability of caps	7
Cost	8
How hay caps are used	8
Storing	10
Reasons for using hay caps	10
When hay caps are not an advantage	13
Farmers' Bulletin No. 978.—Handling Barnyard Manure in Eastern Pennsylvania.	
The barn	4
The barnyard	5
Care of live stock	7
Care of manure	8
Keeping up manure supply	9
Cropping systems	9
Application of manure	10
How manure is utilized on 10 successful farms	11
Farmers' Bulletin No. 979.—Preparation of Strawberries for Market.	
Importance of good handling	3
The labor problem	4
Picking	4
Grading	5
Commercial strawberry grades recommended	10
Packing	13
Packing sheds	14
Shipping packages	17
Standardization of packages	20
Branding and marking	21
Inspection and loading sheds	22
Loading cars	25
Summary	25

FARMERS' BULLETIN NO. 980.—THE SPINOSE EAR TICK AND METHODS OF TREATING INFESTED ANIMALS.

Page.

Nature and habits of the tick 3
Detecting the ticks 4
Treatment 6

FARMERS' BULLETIN NO. 981.—FARM PRACTICES THAT INCREASE CROP YIELDS IN KENTUCKY AND TENNESSEE.

General description of the region 4
Common farm practices 7
Agencies that have proved successful 10
Rotations 19
Some examples illustrating good farm practice 22
Practical suggestions on farm practices 32

FARMERS' BULLETIN NO. 982.—CONTROL OF THE GREEN CLOVER WORM IN ALFALFA FIELDS.

Distribution and life history 3
Control of the green clover worm in alfalfa fields 6

FARMERS' BULLETIN NO. 983.—BEAN AND PEA WEEVILS.

The serious losses caused by bean and pea weevils 3
Losses of leguminous foods especially important now 4
Losses often discovered too late 5
How beans and peas become infested 6
Where weevils in storage come from 7
Destruction continues in storage 8
There are different kinds of weevils 8
General descriptive facts 10
The pea weevil 11
The common bean weevil 12
The cowpea weevil 14
The four-spotted bean weevil 15
The lentil weevil 15
The Mexican bean weevil 16
The broad-bean weevil 17
Why weevils limit acreage planted to certain leguminous crops 18
Germination affected by weevil attacks 20
Remedies 20
Treatment does not prevent reinfestation 24

FARMERS' BULLETIN NO. 984.—FARM AND HOME DRYING OF FRUITS AND VEGETABLES.

Possibilities and limitations of drying 5
Fundamental principles of drying 6
Methods and equipment for drying 9
Preparing and drying fruit products 41
Preparing and drying vegetable products 47
Treatment of products after drying 56
Making soup mixtures 60
Yields of dry products 61

FARMERS' BULLETIN NO. 985.—SYSTEMS OF HOG FARMING IN THE SOUTHEASTERN STATES.

Place of hog raising in the farm business 5
Examples of successful hog production 6
Feeds and forage 11
A suggested grazing system for hogs 23

FARMERS' BULLETIN No. 985.—SYSTEMS OF HOG FARMING IN THE SOUTHEASTERN STATES—Continued. Page.

Expenses other than for feeds 32
Number of hogs to raise 34
One litter per year or two 35
Time of farrowing and marketing 36
Most profitable marketing weights 36
Cholera and other diseases 38

FARMERS' BULLETIN No. 986.—FARM PRACTICES THAT INCREASE CROP YIELDS IN THE GULF COAST REGION.

Economic conditions 4
Practices in increasing crop yields 6
Crops for soil improvement 9
Commercial fertilizers 17
Cropping systems 18
Intercropping 19
Winter cover crops 20
Crop rotations 21

FARMERS' BULLETIN No. 987.—LABOR-SAVING PRACTICES IN HAYMAKING.

Sizes of mowers used 4
Poor method and good method in mowing 5
Common and improved methods of "turning" 6
A common rake, a better rake, the best rake 7
Haycocks protected and unprotected 8
Hay bunched by woman, man, and horsepower 9
Hay-hauling on high wagon and small rack versus low wagon and large rack 10
Hay-loading by handpower and horsepower 11
Hay-curing on trucks in bad weather 12
Extremes of inefficiency and efficiency in hauling hay 13
Eliminating hand labor in stacking 14
Horse and wagon stacking versus push-rake stacking 15
Hand hay stackers versus horse stackers 16
Saving time for the press crew 17
Hard work in getting hay to the press 17
Getting hay to the press—wagon *vs.* push-rake 18
Dumping close to the hay press keeps it going 19
Combination push rake and overshot stacker 19
Other labor-saving practices 20

FARMERS' BULLETIN No. 988.—LARKSPUR OR "POISON WEED."

Losses from larkspur poisoning 3
Larkspurs of the western United States 4
Tall larkspur 4
Low larkspur 7
Larkspur poisoning 10
Symptoms 10
Effects upon the organs of the body 10
Period during which poisoning occurs 11
Quantity of larkspur necessary to poison 11
Horses not affected on the open range 11
Sheep not susceptible 12
Prevention 12
Treatment of poisoned animals 12
Eradication of larkspur 14
Horses and sheep on larkspur ranges 14
Summary 15

FARMERS' BULLETIN No. 989.—BETTER USE OF MAN LABOR ON THE FARM. Page.
Machinery saves man labor ... 3
Plowing ... 5
Harrowing ... 7
Disking ... 8
Hauling manure ... 9
Planting corn ... 10
Cultivating ... 11
Harvesting grain ... 12
Cutting corn ... 13
Husking corn ... 14
Digging potatoes ... 15

FARMERS' BULLETIN No. 990.—TIMOTHY.
Extent of timothy growing ... 3
Rotation of crops ... 3
Mixtures of other hay plants with timothy ... 6
Seeding timothy ... 7
The use and effect of fertilizers on timothy ... 11
Pasturing the meadows ... 16
Weeds ... 17
Harvesting at different stages of development of the plants ... 18
Haying machinery ... 21
Yields of hay ... 24
Storing the hay ... 24
Loss in weight of feeding value of the hay during storage ... 25
Seed production ... 26
Cost of hay production and profits ... 27

FARMERS' BULLETIN No. 991.—THE EFFICIENT OPERATION OF THRASHING MACHINES.
Manufacturers' literature and instructions ... 4
Power and speed ... 4
Belts and pulleys ... 6
Journals and boxing ... 7
The tool box ... 9
Second-hand machines ... 9
Setting the machine ... 10
Cylinder and concaves ... 10
Feeding ... 12
Cleaning the grain ... 13
Finishing the job ... 15

FARMERS' BULLETIN No. 992.—THE USE OF MACHINERY IN CUTTING CORN.
The corn binder ... 3
The platform harvester ... 10
Comparison of binder and platform harvester ... 14

FARMERS' BULLETIN No. 993.—COOPERATIVE BULL ASSOCIATIONS.
Growth of the movement ... 3
Some advantages of coopeartive bull associations ... 4
The influence of heredity ... 8
Educational value of bull associations ... 12
Eradicating disease ... 14
How to organize bull associations ... 14
Constitution and by-laws ... 18
Selection of bulls ... 33

FARMERS' BULLETIN NO. 994.—COMMERCIAL BORDEAUX MIXTURES, HOW TO CALCULATE THEIR VALUES.

Page.

Bordeaux mixture the only remedy for certain diseases ... 3
Commercial Bordeaux mixtures ... 3
Calculation of the money values ... 6
Calculation of lead arsenate ... 7
Variations in commercial mixtures ... 8
Other factors determining value ... 8
Physical properties determining value ... 9
Standard formulas necessary to insure satisfactory results ... 11

FARMERS' BULLETIN NO. 995.—PREVENTING WOOD ROT IN PECAN TREES.

The need of pruning ... 3
How not to remove limbs ... 3
How to remove limbs ... 3
Wounds made in top-working ... 4
Cleaning out heart-rot ... 5
The protection of wounds ... 6
Time for pruning ... 8
Tools for pruning ... 8

FARMERS' BULLETIN NO. 996.—STEAM STERILIZATION OF SEED BEDS FOR TOBACCO AND OTHER CROPS.

Importance of vigorous tobacco seedlings ... 3
Root-rot in the seed bed ... 4
Old method of sterilizing tobacco seed beds ... 4
The steam-pan method of sterilization ... 5
Fall steaming of the seed bed ... 6
Equipment needed for steaming seed beds ... 7
Construction of the steaming pan ... 8
Carrying out the steaming process ... 10
Temperatures secured ... 11
Cost of steaming ... 12
Important considerations ... 13
The formaldehyde method of sterilizing seed beds ... 14
Application of the steaming process to crops other than tobacco ... 15

FARMERS' BULLETIN NO. 997.—TERRACING FARM LANDS.

Causes and forms of erosion ... 5
Methods of preventing erosion ... 7
Terracing ... 7
The bench terrace ... 8
The ridge terrace ... 13
Terrace outlets ... 22
Laying of terraces ... 28
Building terraces ... 32
Care and cultivation of terraces ... 37
Summary ... 38

FARMERS' BULLETIN NO. 998.—CULTURE OF THE LOGAN BLACKBERRY AND RELATED VARIETIES.

Status of the industry ... 3
Origin of the variety ... 4
Extent of culture ... 5
Location and site of the plantation ... 6
Preparation of the soil ... 6
Setting the plants ... 6

FARMERS' BULLETIN NO. 998.—CULTURE OF THE LOGAN BLACKBERRY AND RELATED VARIETIES—Continued. Page.

Intercropping 8
Tillage 8
Irrigation 9
Maintenance of fertility 10
Training systems 11
Pruning 15
Harvesting 15
Utilizing the fruit 19
Yields 22
Duration of plantations 22
Propagation 22
Related forms and hybrids 23

FARMERS' BULLETIN NO. 999.—SWEET-POTATO GROWING.

Importance of the crop 3
Regions adapted to sweet potatoes 3
Soils adapted to sweet potatoes 4
Rotation of crops 5
Fertilizers and manures 6
Propagation of plants 8
Pulling the plants 14
Preparation of the land 15
Setting the plants 16
Cultivation of the crop 20
Diseases 21
Insects 21
Harvesting 21
Selection of seed 23
Storage 24
Grading and marketing 25
Cost of production 26
Commercial varieties 27

FARMERS' BULLETIN NO. 1000.—CROP SYSTEMS FOR ARKANSAS.

Need of better systems 3
How the systems may be adapted to individual needs 4
Ten systems outlined 5
Summary of systems, with acreages for light, medium, and heavy soils 15
Things to consider in choosing and adapting a crop system 19
Relation of systems to food production 23
Relation of systems to labor requirements 24
